

shitty commentary style

So hello sonic crafters and welcome to another video, this time i'll be talking about...

i walk into the tv

...Wait, why are you here this is my segment

i look around inspecting

Man how did i ever think this was okay?

Oh come on this looks like a videogame cutscene

i jump over green screened table as he's talking and look at him

Yeah because we asset flipped like yansim, like look at this design catastrophe of a background, it isn't even even!

door open to show blayon

Are you going to kill him off or what?

angle of me with a jank green screen set up

Good point

looks back at camera and thanos snap, fucker screams as he disappears

so hello sonic crafters and welcome to my dogshit channel, now some of you may ask what type of content i produce

none

... sadly correct but now that the world is falling apart 2021 is guaranteed to be a better year than the last *forced smile then it drops, camera zooming, british flag burning revealing a scottish one* i hope...

so of course that means a brand new chance at selling myself online *only fans page appears* no i, i mean in the other sense.

obnoxious angle change to get away from the set

But how some may ask

You already said that

grabs a bat Right that's it! *walks out of frame, cut with beep*

cuts back with red paint on the bat and clothes

Now where was i? Oh yes content.

So my ideal content rotation is short video, long video, mostly consisting of sonic reviews and shit takes that bring me controversy with communities so hyper specific you couldn't imagine them existing, like seriously these people identify themselves with looking like a childs powerpoint presentation

You're tangential

...why are you here?

That's my bat

Oh sorry, speaking of which, the short content will be a series of sketches featuring classic characters like

(blayon) this twat *sat in bed*

(tips) posh cunt *drops mug*

(john) actual furry *drawing art*

(sammy) my worst nightmare *stares into the camera*

(mafio) not sure if racist or illegal

In the UK it's both

(american) and gun control

I'm pretty sure that's racist too

Don't kid yourself, the left has taught me cis white american males are the root of all the worlds problems so it's impossible for me to be racist against you

Didn't hitler say the same about the jews?

... *runs*

And then there's the rare shitpost that i post usually my side channel meerkat projects.

Speaking of which!

Meerkat gaming, featuring minecraft, sonic and previews of guys playing with each others

joysticks, no not WAIT WHY IS THERE THE PORNHU- with you guessed it, more sonic.

And Meerkat rambles is dead *stares at camera Vsauce style* we may have a podcast idk depends on if joysticks is too DON'T YOU FUCKING DARE!-

And finally we get to monetisation, now before you click off-... (looks around) you know what this isn't manipulative enough, *effects and zoom galore, wettened cheeks* sigh so as you all know, my channel doesn't receive sponsors or advertisements for some reason *shows controversial clip* so for me to make this a job i need support on patreon for me to totally not spend of yiff and instead fund my lifestyle of procrastinating, sleeping at stupid times, and being painfully edgy online, we have tiers such as access to a discord server only simps are allowed on, *shows onlyfans, colour returns to normal* not those simps there's too much competition, but my simps, the people i really shouldn't be taking the mick out of because they'd be funding my hobbies, and then, and then of course there's the different tiers like access to my minecraft realm cause i'm lazy

Like you're too lazy to the tone

gunshot, looks at weapon huh i see why he uses these things

jumps up so yeah discord for updates because youtube subfeeds are wank here's proof

shows pockettube and text document in the description because i hate spam, byeeeeeeeeeeee

outro

I'm not joking on the outro btw, i really need something pretty for the end to tie a theme together to replace the black on white comic papyrus... dunno which end of this video is worse. *end*
